## DETAILED ACTION

### *Examiner's Statement of Reason for Allowance*

Claims 1-8 are allowable over the prior art of records.

The following is an Examiner's statement of reasons for the indication of allowable subject matter: Claims 1 and 3 are allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior arts.

The primary reason for allowance for claim 1 is the inclusion of a preparatory region provided at the front side of said user region, having a plurality of preparatory sectors that are used when the user sectors and the alternative sectors are relocated, wherein the user sectors storing user data of the posteriori defective user sectors in the alternative region and the user sectors other than the posteriori defective user sectors in the user region are relocated over the preparatory region and the user region in the order of the logical block addresses in conjunction with the rest of the limitation set forth in the claim.

The primary reason for allowance for claim 3 is the inclusion of having preparatory sectors that are used when the user sectors and the alternative sectors are relocated, comprising the steps of: (1) counting the number of the alternative sectors, (2) assigning new logical block addresses to sectors starting with the sector of the counted number in front of the top of the user region, the posteriori defective sectors being skipped, (3) reading user data stored in sectors of a predetermined number in the direction in which the logical block addresses increase, (4) writing the user data read in the step (3) in the direction in which the new logical block addresses

increase, and (5) repeating the steps (3) and (4) until the user data of all alternative sectors are moved in conjunction with the rest of the limitation set forth in the claim.

The remaining claims, not specifically mentioned, are allowed because they are dependent upon one of the claims mentioned above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
